

Oct. 22, 2012

Dear Neighbor,

As part of the City of Carlsbad's ongoing program to maintain our roadways, your street has been scheduled for resurfacing in the coming weeks. The resurfacing work requires that your street be closed for one day, usually from around 7:30 a.m. to 5 p.m. You will be notified of the exact day and time 72 hours in advance by a flyer attached to your front door knob. You will also notice temporary "no parking" signs on your street with a specific date written on them. **(PLEASE NOTE: weather conditions and other factors outside our control can sometimes cause work to be rescheduled at the last minute. If this happens, we will notify you as soon as possible of the new date.)**

- To prepare for this street closure, we are asking neighbors to help. Here's how:
- Park your car outside the affected area unless you plan to leave before 7 a.m. the morning the work starts.
- Park your car in your driveway or garage (off the street) if you aren't going to need it during these times. Cars left on a street posted for a temporary closure will be towed at the owner's expense.
- Avoid walking, biking and skateboarding on new roads until construction signs are removed. Please keep kids and pets off the new roadway the day of the resurfacing, too. Until it is dry, the road resurfacing material will stain your shoes, cars, carpets and floors.
- During the day of the resurfacing, please try to keep the new road dry (monitor sprinklers, hoses and other water sources around your home).
- Please note that mail could be delayed on the day of the resurfacing if your postal carrier cannot reach your mailbox.
- Work will not affect your trash pickup. Please put trash out on your normal day.

Valley Slurry Seal will be performing the resurfacing work for the city. **You may call them at 800-748-6551** for more information about the project and to answer questions.

The City of Carlsbad has the most well-maintained streets in the region thanks to the cooperation of community members like you. We appreciate your patience and understanding, and we will do everything we can to get this work done quickly and efficiently.
